Gloassary

Data Type	Read Only / Verify / Retrieve
Course Code	Auto-generated key used to identify the course a student is logging into. This is a a longer string of letters and/ or numbers, it does not need to be easily memorized.
Pin	Auto-generated password used to verify a specific student has access to log in. This is either 2 pictures or 4 numbers.
Pin Type	Pictoral or numerical
Theme	The version of UX/UI the student has within the app. We will have 3 themes: Kiddie, Tween, and Teen. They vary in visual style, as well as feature set.
Catalog	The set of books that a student has access to.
Collection	A set of books currated by a teacher and then accessible by students in a class, or a subset of that class.
